Data on file. Medytox, Inc. HA: Hyaluronic acid

* UTW(Ultra Thin Wall needle)

The Ultra Thin Wall needle has a larger inner diameter compared to regular needles. It improves flow rates and lowers extrusion force during injection.

2

Features of Neufidence

Soft and Resilient, Neufidence is made from an ideal combination of using high quality raw materials, elasticity, and viscosity.

H.E.A.R.T Technology

High Elasticity, Advanced Rheological Throughput

Raw material (Hyaluronic acid)

The raw material of Neufidence is Non-GMO's Streptococcus zooepidemicus and Medytox does not use animal media or enzymes in the whole manufacturing process.¹

(Listed on US FDA DMF and certified by the EDQM)

Streptococcus zooepidemicus

GMO; genetically modified organism, FDA : Food and Drug Administration, DMF : Drug Master File, EDQM : European Directorate for the Quality of Medicines

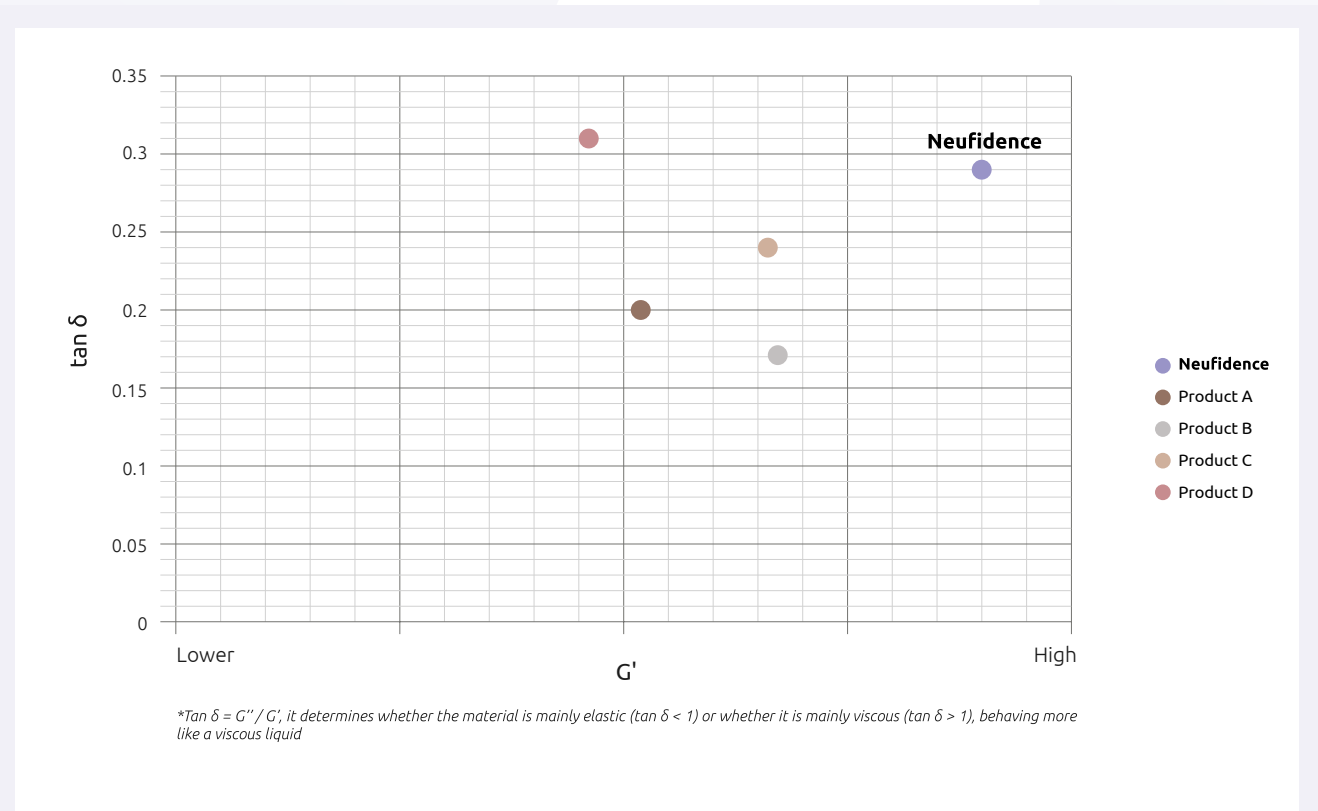

2

Features of Neufidence

Rheological property

Neufidence has high elasticity and soft properties because of high G' and $\tan \delta$ values.^{1,2}

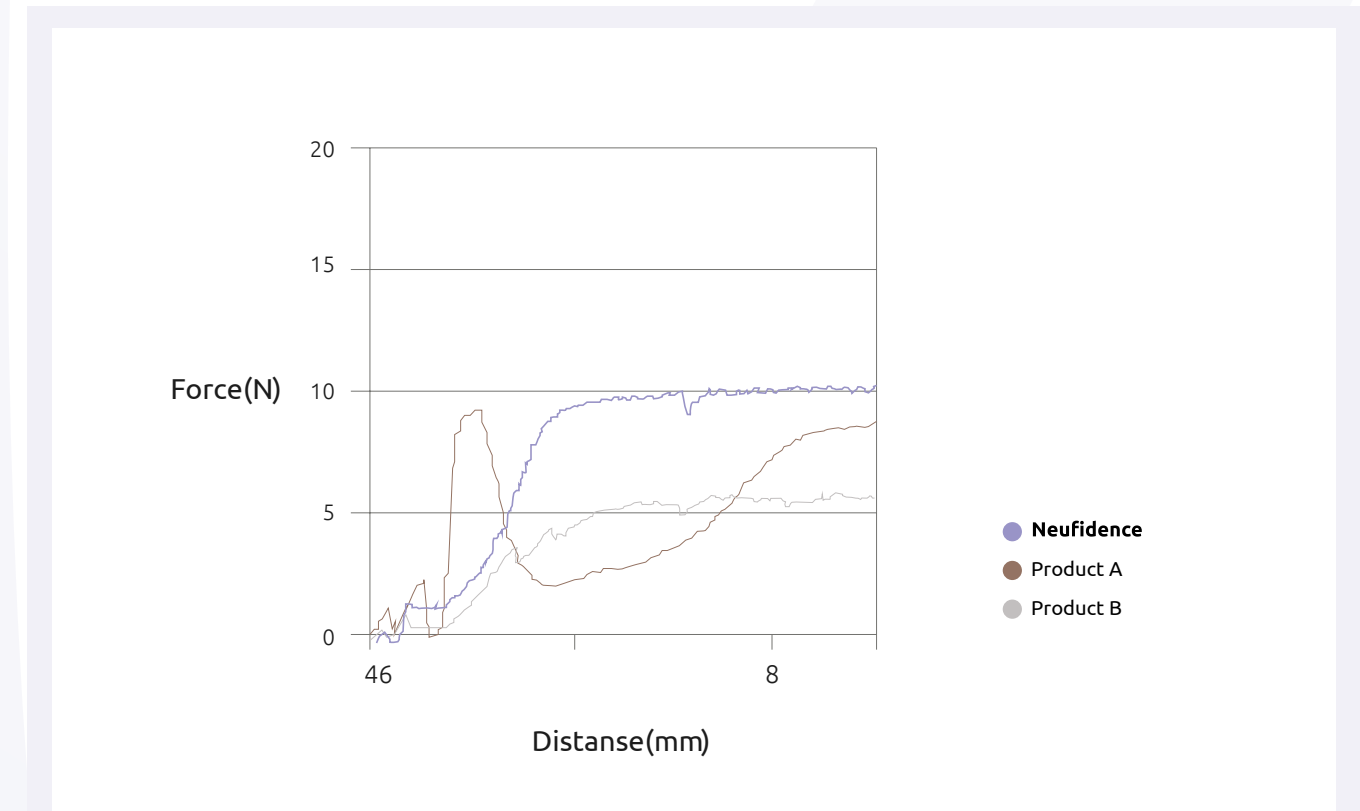

(Medytox's equipment measurement standard)

Extrusion test

Neufidence enables consistent and stable injection.¹

(Medytox's equipment measurement standard)
